Cowhiding an Editor.

Trenton, N. J. (18th) Cor., N. Y. Sun.]
This city was to-day thrown into a flurry of excitement at a scene which took place about 10 o'clock in the banking-house of Col. J. R. Freese, the well-known journalist and financier of Central New Jersey, who had lately returned from Jerusalem. The affair which set Trenton by the ears and furnished food for a nine days' gossip was nothing less than a brilliant but painfully unsuccessful attempt on the part of Robert F. Stockton, Jr., son of U. S. Senator John P. Stockton, and a Lieutenant of U. S. Marines, to cowhide the dignified and austere Col. Freese, who has lately returned from Jerusalem.

It seems that a few days ago young Stockton in company with some one of his boon companions met a young merchant of this city named Johnie, on State street, with whom he was but slightly acquainted, and addressed some insolent remark to him. Johnie paid no heed to the impertinence, but passed on, when Stockton turned quickly and dealt him a blow which felled Johnie to the pavement. For this assault Stockton was arrested and required to give bonds to keep the peace.

In commenting upon the affair the following day, the *Union* and *Sentinel*, a paper owned by Colonel Freese, who has lately returned from Jerusalem but edited by Mr. W. C. Jay took occasion to show up the character of young Stockton, and ended the article by saying that he was a dangerous young ruffian, and ought to be indicted.—The young warrior was of course, highly indignant at the publicity given his escapade, and at once conceived a highly romantic scheme of vengeance. This morning he attempted to put it into execution.

Punctually at ten o'clock Stockton, hearing that Colonel Freese had lately returned from Jerusalem, appeared in the door of his banking house, bearing in his hands a copy of the *Sentinel* containing the offensive article. In an imperious voice and with the air of one born to command, he asked to see the proprietor. Colonel Freese, who has lately returned from Jerusalem, answered politely that he was the gentleman. "Are you the proprietor of this filthy concern, sir?" said Stockton, showing him the newspaper. Colonel Freese, who has lately returned from Jerusalem, blandly said that he was the owner of it. "Then, sir, I demand an apology for this villainous article. Are you prepared to give it?" shouted the Stockton blood.

Now, Colonel Freese, who has lately returned from Jerusalem, is an elderly gentleman, stout, portly, & in his manner the very quintessence of dignity. Stockton is rather short but stoutly built, and possesses an air somewhat remarkable for its sublime and exquisitely toned impudence.

The interrogation of the Colonel, who has lately returned from Jerusalem, was accompanied by the most insolent swagger, which was doubtless intended as an indication of the lofty contempt with which he regarded the owner of the offending journal. The Colonel looked at his questioner for a moment seemingly lost in admiration at his gentle, manly deportment, but made no reply. Without another word Stockton slipped his hand beneath his coat, drew out a long cowhide, and with the exclamation, "Take that, d—d scoundrel!" commenced to belabor the Colonel (who had lately returned from Jerusalem) over the head and shoulders in true Lydia Thompson fashion.

The Colonel, who had lately returned from Jerusalem, at once grappled with his assailant, and, after a short struggle, got him into a corner, where he tried the choking process, but, having on gloves, he abandoned the attempt as too difficult of execution, and seizing his cane he shattered it into splinters over his assailant's head, which is said to be remarkably thick.

Having thus disarmed himself, the Colonel (who, by the way, has just returned from Jerusalem) seized broom-handle standing nearby, but this soon shared the fate of its predecessor. Here the combatants grappled again, and in this struggle the Colonel (who has lately returned from Jerusalem) was fortunate enough to capture the cowhide, and he at once turned it with a fearfully demoralizing effect upon the now somewhat wavering enemy. Stockton was finally forced into the street, hotly and painfully pursued by the captured cowhide in the hands of the irate Colonel (who, we are informed, has lately returned from Jerusalem.)

As the vanquished assailant ran bareheaded down the street, a crowd of enthusiastic & immensely tickled small boys who had been attracted to the spot, followed him with shouts and yell of derision. The last that was seen of young Stockton, he was in full flight for the State street bridge, enroute for the other side of the river. The station agent at Morrisville (at the other end of the bridge) has since reported that Stockton pawned his watch there for two dollars and fifty cents, and took the train for Washington. Parents were got out for his arrest, but of course cannot be served until the young man returns to Trenton to redeem his watch.

Several who observed him closely

as he emerged from Col. Freese's office (who—the Colonel, not the office—has lately returned from Jerusalem) say that he was pretty severely cut about the head and face, and generally in a sad condition. The victorious Colonel, who is said to have lately returned from Jerusalem, had a lovely mouse just above his bump of eventuality. After the enemy had been put to flight, he gathered up his trophies of victory. They consisted of one cowhide, one cane, one kid glove, one silk hat and a badly dominoized copy of the *Union* and *Sentinel*.

These trophies are now on exhibition in the Colonel's window, and have attracted a large and curious crowd to gaze upon them. All the afternoon the victor, who has lately returned from Jerusalem, has been receiving the congratulations of his numerous friends, and he is constantly engaged in relating to different inquirers the history of his exploit.

Young Stockton is universally condemned, &, notwithstanding he has doubtless gone to seek the aid and counsel of his distinguished father no effort will be spared to bring him before a grand jury for this villainous assault. Col. Freese has but recently returned from Jerusalem.

The sentiment in relation to the conduct of Judge Rice, Gov. Parsons and Alex. White in relation to the injunction proceedings on yesterday is one of universal condemnation. If they had any friends left in Alabama, they have forever lost them and deservedly so. They have for paltry power run the risk of involving Alabama in ruin and the whole nation in war.

Congress.

It will be observed from the dispatches that a better temper, so far, has possessed of Congress than has heretofore characterized that body. They seem to have gone to real business; and the bills looking to general amnesty, so plentifully introduced, give promise that we will not be subjected to any more of that reconstruction, which has been the curse of the country, except in that it has broken down the Radical party in the South. The Radical leaders, it all probability see the latter effect, and are fixing up by a cinculatory policy toward the people of the South against the onslaught of the Revenue Reformers which will most certainly be made with terrible effect. The only men who seem to be behind the spirit of the age and the necessity of the hour, are the conspirators at Montgomery, and the figure-head in the white house. Grant prates of the States recently in "rebellion," of "traitorship and force" as glibly as a fourth rate crossroads radical politician, and Gov. Smith evidently thought that the Radical party would go on achieving itself to keep up the South such scoundrels as he—the men who have broken down the party in the South by the specific gravity of their villainy and corruption. Ex-Gov. Smith has by this time, however, doubtless learned that the day when his sort could be of use to the Republican party, as dirty tools, is passed, and that he and his friends will be thrown overboard as remorselessly as they themselves in times past treacherously contrived and the rights of the people. If Congress had thrown them overboard and appended to the vicious and intelligence of the South sooner, the Republican party would have been stronger to-day than it is, in respectability if not in numbers. It would have been stronger in numbers, for the instruments chosen by Congress have even disgraced the negroes with the party, and have forced them into the Democratic ranks, both for protection against robbery and more respectable association.

MONTGOMERY, ALA., Dec. 5, 1870.
Editor, R.R.

DEAR SIR: Although no material change in the State has occurred since I wrote to you last, yet I have thought some items of news might not be uninteresting. Smith and Bingham still hold on, and talk of a settlement according to law, as if there was any law, justice, honor or precedent for their traitorous usurpation of offices from which the lawful and peaceful verdict of the people has already bailed them. Smith's messages are received by the Senate and Lindsay by the House. To-day Gov. Lindsay sent his message to the Senate, and they refused to receive it. Compromises have been hinted at; among others, that if Democrats would not contest any radical seats, thus leaving one or two Rad. majority on joint ballot, so as to secure a radical U. S. Senator, then Smith and Bingham would withdraw. But Democrats are not used to being bought and sold, nor to making dishonorable compromises. When mentioned to your correspondent, he gave it as his opinion "that there were many ways to kill a dog without shooting him to death." The new Treasurer is receiving money from the Tax Collectors, notwithstanding the old ex-Treasurer refused to surrender the money, if any assets, Books, papers &c. It is thought if any in the State will venture to pay to Bingham,

To-morrow the Senatorial election comes on. Numerous candidates on both sides are mentioned as you know. Judge Goldthwaite is probably most prominent among Democrats. Both parties still claim a majority of one or two on joint ballot.

No certainty of a speedy solution of difficulties. Probably a peep of daylight may appear after the Senatorial election, at which time I will write to you again.

J.T.H.S.

The meeting on Monday called to take into consideration the situation at Montgomery, was well-attended by the thinking men of the county. The speeches, though thrillingly eloquent, were marked by moderation. The only passion visible was in the gleaming eyes and beaving bosoms of the outraged and insulted freemen present. Contempt for the miserable men who have attempted the subversion of our liberties, marked every face when the names of Rice, White or Parsons chanced to be mentioned. The name of Pelham was not mentioned—He was the object of the indignation of so respectible a body of men.

As the usurpation have continued, another meeting was to have been called to give a more decided expression of opinion. In that event also, we should have given the speeches as they were already delivered on the previous occasion of above. A thing are, we are content to pass the meeting with this casual notice, and let the wile tools who lent themselves to the con piracy at Montgomery sink below public sight as soon as possible.

On the outside of this paper we print the name of John H. Smith, for the editor of the *Montgomery Advertiser*, who has previously given the paper containing it was printed. We still wish it read that our people may arrive at a better comprehension of the enormity of Smith's offence.

Col. Francis, the talented &c. editor of the *Gadsden Times*, passed through our place on Sunday night, en route for Montgomery to attend the Grand Lodge.

AUTUMN DREAMS.

BY CHIQUITA.

New York, D. Appleton & Co., 1870.

The Appletons have presented this little volume to the public in a fitting garb for the beautiful thoughts it contains.—We do not, however, propose to write any lengthy or elaborate criticism on these poems. We have read them all with pleasure, and can recommend their perusal to our readers, in the confident belief that, if not made wiser, they will be refreshed and invigorated by a brief communion with a master spirit of song.

Poë, if we remember correctly, defined poetry to be "the rhythmic creation of the Beautiful"—meaning, not merely the outward and visible beauty of creation, but that higher beauty of sentiment and feeling that superlative loveliness, for which the soul ever yearns, unattained and unattainable; that indescribable beauty of the "Summer Land," above the mists of earth, above the stars which fade and the moon which waneth in her course; "that light which was never on sea or shore," which now and then over clambers on us as the reminiscence of a pre-existent state.

Poë also believed that the highest tone of the manifestation of the beautiful was sadness. Taking this definition of Poetry to be true, and it is, at least as good as any we have seen, we may say of the author, when lingering with passion and beauty over these exquisite strains so full of delicate sentiment, of unutterable tenderness, of wild and plaintive melody, "that every god has set his seal, to give the world assurance of a poet."

While in the wonderful conception—the imaginative beauty—the eagle flight we recognize the clear voice of genius; we are no less struck with the rhythmic and perfect articulation of the verse. Sparkling, glowing, beautiful, there is, however, a minor key of sorrow like the surge of the sea breaking on a bleak and desolate shore, or the West wind's such sweeping "round a lonely inn, in which often moves us to tears.

There is one poem which bears the unmistakable impress of genius, which deserves to be ranked with the "Raven" of Poe, the "Thompson" of Bryant, the "Examiner" of Longfellow. These are four bright stars in the galaxy of American poetry that from Heaven's high arch will fall—never. They have the seal of immortality. In some respects, this poem entitled "Sweep, O Sea," has a resemblance to Hood's "Bridge of Sighs"; but in conception they are somewhat alike in the artistic treatment of the subject, in refinement of imagination, in delicacy of sentiment. We must give the poem that from Heaven's high arch will fall—never. They have the seal of immortality.

Gov. LINDSAY is moving on quietly and firmly in the exercise of the powers and in the discharge of the duties of his office. He has established himself officially in comfortable apartments at the Capitol, while Ex-Governor SMITH continues to board at the public expense, in certain other offices he has appropriated. The Governor has appointed his private Secretary, Col. Gresham, he has also appointed the gallant and popular Gen. Wm. ALEXANDER his Chief of Staff. We have already published his Proclamation to Tax Collectors and his Message to the General Assembly, sent to the House some days ago, and to the Senate on yesterday, will appear in the report of the proceedings of that body. On yesterday he also complied with a requisition from Gov. BRIDGWELL of Georgia in relation to the extradition of a fugitive from Justice.

Mr. Treasurer GRANT having executed his official Bond, with the amplest security, approved by Governor LINDSAY, offered to file it with the Auditor, whose duty it is by law to receive it. We are informed that Mr. Auditor REYNOLDS, declined to comply with the law and thus virtually seeking a conflict with the State authority, he has likewise retained his original Bond, in the office of the Secretary of State. Many of the Tax Collectors are laying the monies in their hands to Mr. GRANT as the lawful State Treasurer. They had better all do so.

Montgomery Advertiser, etc.

Over a calm, strangled hope, sweep, O Sea!

Sweep, sweep, sweep, o'er a cold, pale face,

O Sea—

Over a closed red mouth with its sobbing and song;

With its kiss of passion, lips dumb with woe—

Over a calm, strangled hope, sweep, O Sea!

Too late the poor sensations sold, feet, O Sea!

While keeping wide the wild sweet seas of love,

The earth a sound and bitterness. Light from above,

Glimmered not o'er the wrecked one, O Sea?

Break, break, break o'er this fallen one, O Sea!

The warm, sheltering wing under which once kept

Feels no more the heart-beats in a wretched sleep,

And wakes now to sorrow and fear,

Break, break, break, O thou surging billow,

Over a folded young life—o'er a sad, soulless earth,

Over a hungry sea—O, blinding waves roll,

Over this passion and pain forever.

We wonder if those so-called Democrats who voted for Governor Smith are not ashamed of themselves sin in his recent exhibition of villainy. How is receipt?

We sincerely congratulate our People and the National Democracy on the election of a Conservative Representative to the United States Senate from this State; and tender our kind congratulations to the worthy and talented gentleman whose extreme good fortune it is to have been chosen to represent such a constituency.

Judge GOLDTHWAITE's disabilities have been removed by Act of Congress and there can be no reasonable doubt of his being admitted to a seat in the Senate.

Montgomery Advertiser.

Autumn Ga. in her municipal election has gone Democratic.

Elsewhere will be seen the proceedings referred to by Gov. LINDSAY to dispose of the books, papers, rooms, &c. of the Governor, as well as the Seal of the State which Smith had previously retained from the office of the Secretary of State. We are gratified to announce that Wm. has at last "vamoosed the moche"—the grand Hoado is no longer on exhibition. Gov. LINDSAY has possession of the rooms, etc. We have held up our paper a few hours, expecting this news.

Sept. 1st, 1870.

We invite the attention of our readers to the new double column advertisement of Montgomery Bros. They have recently received a new stock and have fitted up their store, so that it is, the most attractive place in town. They have an abundance of good things for Christmas which they are selling low. Go look at their pretty stock.

INFORMATION WANTED OF Edward Kelley, formerly of Livingston, Ireland, aged about 60 years and whom last heard from, was in the State of Alabama. Any information concerning him should be addressed to Miss Annie Slavin, (daughter of James Slavin) 12 College Grove Avenue, Chicago, Ill.

SPECIAL NOTICES.

\$100 CHALLENGE!—It is stated that one tablespoonful of English Female Bitter contains as much medicinal properties as one bottle of any of the advertised grog shop Waters of the day, and the proprietors offer a challenge of \$100.

Montgomery Bros. sent up, yesterday, something under half a bushel fine oranges to the employees of this office. They were very large and delicious. This excellent fruit had all varieties of confections; the next week will have an abundance of oranges and Christmas gifts on hand. They will please accept thanks.

Hereafter advertisements (other than legal advertisements) and communications must be handed in Thursday morning, or before, to insure a place in the following number of the paper. We will not positively be longer subjected to the inconvenience attending a flood of advertisements and other matter on the part of publishers.

Nearly every week we are delayed in this way by those who could as easily, in the early part of the week, hand in what they desire published.

Our distinguished townsmen, Gen. Wm. H. Forney, was proposed for the U. S. Senate in the Legislature; but his friends would not allow the name to be before the body for election; because it is ineligible.

Cleburne court will commence next Monday.

Dr. Nisbet has not reached water yet. He has gone down only about 180 feet and has "right smart" material to go on. It is thought he will reach China by the time the revolutionary and utterly-well Pennington gets his Opelika & Rail Road built.

We want money for subscriptions and advertising due and will soon put out the accounts of some of our subscribers for collection. We cannot undertake to furnish, at our own expense, the paper or continue for the term of their natural lives and afterwards have the trouble of collecting from their administrators. We take money to carry on our business and we mean to have it, even at the risk of offending some of our oldest friends and subscribers. After one month we intend to begin to scratch off names and send out the accounts of those who do not respond in the meantime. Our business is business and we mean what we say.

M. Robt. Alexander has closed the Atlanta Hotel.

F. H. Maynard & Co., N. E. Cor. of Peach Streets, Advertising Agents, are equalized seven-tenths. They advertised with us three months and pay no attention to our bill repeatedly forwarded.

L. V. DeForest & Co., Jewellers, 49 & 42 Broadway New York have our advertisement; at the same time referring to it Pottengill & Co., Geo. P. Lowell & Co. and others with whom we have dealings in New York. Mr. Pottengill informs us he knows no such concern, therefore L. V. DeForest & Co. are binders, and we would advise our ex-changers to drop their advertisements.

Yesterday a friend came to us and advised the name of some Mobile Commission Merchant. We referred him to our advertising columns, and he found the name of F. B. Stollenwerck & Bro. and will transact his business with them, they are the only Mobile commission merchants who advertise with us.

Some time ago another gentleman came to us and asked if a Mr. Hale of Boston was still in business. We took up Mr. Hale's advertisement and consequently could not inform him. Mr. Hale may have lost a customer here, total—advertisers.

Both the college and the new brick building of Mr. Wright, are almost complete and both do great credit both to Mr. Wright, the brick contractor and Mr. Blakenan, the wood contractor.

Mr. Wright soon goes to Arkansas to undertake a large contract there. The people will find him a perfect gentleman and worthy of all confidence.

Nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

The Treasurer has been paying only one special claim. He awaits action of Admiralty Court before paying out regularly. He has the correct view of the matter. Too much "preferred" work is the injury of older and equally just claimants.

Whisenant & Driskill sold lots of odds and groceries this week. They are stirring men.

The days have been warm enough the last week to admit of the usual amount roofing on the court house steps.

The spire of the Presbyterian church ought to be completed. Everybody will be something.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair.

Painted or gray hair is soon restored to its original color with the gloss and freshness of youth.

Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

SMITH'S APOLOGISTS.

Three gentlemen of this State, Messrs. Brooks, Pettus and Powell, are out in a Card "to the People of Alabama," on the subject of the late enrollment at Montgomery, which we do not publish, (1) because we do not endorse it; and (2) because we would spare our readers the self-abasement of feeling, by comparison, which would follow upon a more lengthy exhibition of rare and exalted magnanimity than is revealed in the closing paragraph, in which the "cheerfully bent witness to the patriotic motives by which he left Gov. Smith was actuated in abandoning this contest, and thus securing the regular administration of the State government." Truly, their's is the "charity which sufficeth long and is kind." Our's, we confess is not of the exalted type displayed by the apologists of Smith, who proved himself in the whole transaction, to be an unprincipled usurper.

After the Democratic victory in November the Democratic press with singular unanimity bespoke a general treatment for the vanquished—a complete wiping out of the past and no proscription in the future; and the sentiment was approved by the Democratic masses of the State. How were these friendly and generous overtures met by Smith? By a deliberate plan to drive the victorious party to desperation and riot, that Congress might be provided a plea for fining him up to a second term. By this action he placed himself without the pale of forbearance and courtesy. His final action in the matter is attributable solely to the sound judgment and dispassionate action of Gov. Lindley, and the people to re-gard it.

If Smith was impelled by patriotic impulses to abandon the contest, then Birmingham was too, for he relinquished his claims at the same time, and before he was brought into court. We should ascribe no inactivity to the latter man of the two. Now we submit, is it not a little singular that the same exalted love of country moved these two men at one and the same time, to do precisely one and the same thing—self-imputation for their country's good?

But accepting the whitewashing of Smith a priori, there is still cause of complaint for poor Birmingham is neglected. Smith in his laudable efforts exonerated White and Rice and Safford. Afterwards, when the *Mail* called his attention to his neglect of Barr, he with more regard for the interests of that excellent paper than he had ever before shown, issued a supplementary article, in which Barr was cleared up. Then followed the Address "to the people of Alabama," in which Smith was proclaimed a patriot, and behold they all stood out "pence the beneficent snow."

Now, what is most dismal, is that some body (Bellman, for instance) issues a card palliating if not excusing the infamous conduct of Birmingham. If Smith is to be excused, let his leave wholly to blame for the conspiracy at Montgomery against the lives and liberties of the people of Alabama.

KING SPEAKS.—LET ALL THE EARTH KEEP SILENCE.—King has spoken on the subject of State aid through the Atlanta Union. King is in favor of State aid. This settles the matter. King, we take it, is a railroad man. Do not know whether he uses a shovel or a pick; but anyhow he thinks State aid is such that as extended to Stanton. He sneers at all other roads but Stanton's. He is emphatically the greatest sneerer of the age. We imagine that he habitually carries his nose and upper lip, as if his breastpin stuck back. When King goes to Gadson, the people all turn to look at him; and then, we expect, yes it is human nature, King turns a little and thinks, maybe, some of them take him for Stanton. (Pardonable vanity in King, when we consider the amount of brains he has.) King sets off in some glibious jokings at the expense of Gadson—something entirely new in the jokeline—such as, that the people suppose Andrew Jackson still to be President etc. King laughed immediately over him before he sent them to press. We think we see him now as he read them over with eyes water from laughing, and as he slapped his leg in mirth with a "By George, I'm glad it did write it." Now, if anybody could just enjoy the pith of it as King saw it, we would all have been ere this fit with laughing but we don't see it as King saw it. Ah! we don't see it as King saw it. Every other feeling is absorbed in the agonizing anxiety to know who King is—whether he is a real King-fisher, or a mere fly-up-the-creek. We incline to the latter of opinion.

The Chattanooga Times importantly announces that Stanton has written a letter, in which he recognizes Governor Lindsay. Who cares whether he recognizes him or not? We guess it matters very little to Gov. Lindsay.

Stanton, (after having time to get a dispatch from Smith indicating his intention to abandon the contest,) wrote a letter to the Montgomery Advertiser, in which he disclaimed any hand in the late conspiracy to thwart the will of the people of Alabama. He said nothing, however, of the 900 illegal votes he polled in Jefferson county, to effect the same result, during the election.

The editor of the Rome Commercial wants to stamp the heart out of Alabama negroes who are to be shipped into Georgia to carry the election for the Radicals, and some old gentleman "with the gout in both feet" writes his condemnation of such a course to the Daily.

Correct young Democrat.—We'll tell these hired villains on the border. They shall not override the liberty of the people of Georgia.

Mild cold Gnat.—Let 'em ride young man or somebody's feelings will be hurt.

Some of Stanton's Democratic suitors are soliciting favors, just as the fact that he has *resigned* Gov. Lindsay. The important question, it seems to us, is whether Gov. Lindsay will recognize Stanton as chief beneficiary of the State, longer.

Election of County Superintendent of Education.

The Board of Education have revised the whole school system and have gone far to away the extravagances which have heretofore prevailed in that department.

An opportunity is given the people to elect a County Superintendent on the first Saturday in March. The Act embodies the changes which have been made in the system, will soon be sent out to every county by the State Superintendent, in order that the people may vote intelligently at the election.

The new system will cost the State, as follows:

County Superintendents receive not more than 5 per cent. on money paid out and not more than \$100 for travelling expenses. In 65 counties, this would amount on the basis of last year's appointment, to—
County Superintendents' salaries \$26,000
Traveling expenses 3,400
Total under old system \$35,400
Under new system 76,000
Difference, \$40,600.

Difference in favor of new system, 40,600.

In the matter of Normal classes the comparison is as follows:

Under old system, \$25,000
Under new system, 15,000
Difference, \$12,000.

The Board therefore have cut down expenses from more than \$100,000 to less than \$50,000. This is doing pretty well considering the fact that we have only Democratic members of the Board. Next session they will do more and when we elect an entire Democratic Board at the expiration of the terms of some of the present Board, the system will be brought to perfection.

We are indebted to the Montgomery Mail for the facts and figures above given.

We are glad to meet today Capt. James Cook, our representative, who has returned to spend the recess in our midst.

It appears that Gen. Grant and Admiral Porter have been recognized. The *Tribune* states that the reconciliation was brought about by Gen. Sherman—the *World*, that it is the work of Mr. Boree. Whatever may have been the case, the fact is plain that President Grant has again taken Admiral Porter to his confidence, since he has sent to the Senate his nomination to the office of Admiral.

The New Senator from Alabama.

From the New York Tribune.]

The Republican dissensions in Alabama, which yesterday resulted in the defeat of Senator Warner and the return of a Democrat in his place to the United States Senate seem utterly without excuse. Mr. Spencer is undoubtedly the man to be held responsible, and Republicans, when hereafter he seeks support, will not be likely to forget the present performance. Judge Goldwaite, the new Senator elect, is an old citizen, a man of the highest respectability, of liberal education, and of considerable talents. He has been a lawyer and Judge in Alabama for nearly forty years, and to the two pursuits he added the management of the cotton plantations which he owns in Alabama and Texas. He was a rebel, but not of the most virulent class, and Farisworth offered a substitute for the whole bill as follows: That all political disabilities imposed by the third section of the fourteenth amendment be removed.

We want money for subscriptions and advertising due and will soon put out the accounts of some of our subscribers for collection. We cannot undertake to furnish, at our own expense, the paper to gentlemen for the term of their natural lives and afterwards have the trouble of collecting from their administrators. It takes money to carry on our business, and we mean to have it, even at the risk of offending some of our oldest friends and subscribers. After one month we intend to begin to scratch off names and send out the accounts of those who do not respond in the meantime.

Some of our patrons have responded promptly to our call of last week for money. Those who do not respond within the time set may be certain that we will do as we promised—take their names off and send out their accounts. It takes money to carry on a newspaper as it does in any other business and we have no idea of trying to get along without it.

We invite other of our patrons to come up and settle at as early a day as possible. We sincerely thank those who have already done so. Our appeal was not written alone for the benefit of doubtful or bad paying subscribers; but was equally intended for our good subscribers from whom we have a right to expect, and do expect prompt pay.

The Harpers find no place on the news stand of Messrs Francis & Woodward. The Harpers are bitter enemies of the South and should not be patronized by Southern Newsdealers. Older firms might profit by the example of these boys.

"The Counterfeit Money Men" on the outside of this paper will be "a mighty interesting reading" for some rascals in this country that we know have sent money to them. A man who would pass counterfeit money on his neighbors would steal their pocket books without the least qualm of conscience.

POCKET BOOK LOST.

The undersigned lost on the 12 inst. between Jacksonville and Oxford on the wagon road a small plain black pocket book, containing \$15 in greenbacks and 10c in nickel coin, together with other valuable papers—notes and accounts made payable to him.

ROBT. ALEXANDER.

A black Setter pup, about a year old, belonging to Capt James Crook, has been missing several days. She is of importanced and highly prized. Information leading to her recovery, left at the office, will be appreciated.

The express business is largely on the increase if we are to judge by enlarged facilities for trans-transport introduced by the indefatigable and wide awake Agent, Mr. Wm. T. Alexander. A brave new and pretty Express wagon which would not do discredit to New York has taken the place of the buggy and buck. The business has increased with this convenient means for shipment, and now every day the wagon goes out to the Depot loaded. Mr. Alexander deserves consideration at the hands of the company for building up the interest at this point, and the thanks of our people for placing in their reach so easy and safe means for the quick transportation light or valuable packages.

We return thanks to Alexander & Morris for a package of fine sugars. These clever gentlemen have more of them left, as well as a large and splendid stock of groceries, christians, tricks &c.

The young folks will have a christians festival.

Mr. Blair travelling Agent of the St. Louis Home Journal called on us yesterday. The Home Journal is a splendid literary weekly and has claims the South far above the yankee con-

cerns which vilify and abuse us on every occasion.

A press of job work has delayed our paper some hours this week.

We call attention to the new advertisement of Whisenant & Driskill. They have shelves full of toys and curiosities gifts. Their stock of confectionaries is unsurpassed.

On yesterday evening our esteemed friend Capt. J. M. Renfro left for Columbia, Tenn., to take charge of the interests of the Great Western Life Insurance Company. The contract he has closed with the Company is a paying one; and this is all that reconciles us to the loss of him to this community. He takes with him the kind wishes of many friends; for there is no more popular man in the country than he.

About the boldest feat of wood stealing I have yet heard of occurred some nights ago in town. Chamber, a negro man, drove his wagon of wood on the square after dark and left it a few minutes while he went into a store. On emerging from the store he discovered his wagon and team were gone. After some search he found them several hundred yards from the place he had left them, in an opposite direction from his home. About half the wood had been removed by the thief.

How Sambo Votes.

An interview with a native Alabamian.

I know a district in one of the northern tier of counties where the returns show that of the eighty odd votes polled all were for Lindsay, although there are several gentle Africans living in that favored locality. Thinking an interview might shed light on the gloomy affair, I said to a sovereign of that district, "How happened it that Smith did not get any votes at your polling place?"

"Because," said he, as he pried a toomail that protruded through a hole in his boot, "because nobody voted for him."

This answer would have terminated an ordinary interview, but as I was after information bearing upon the future welfare of the party that saved the Government in the hour of its trial, I continued:

"Any negroes in your beat?"

"Yes, a dozen or 'em."

"Did they vote?"

"They did, in the cool."

"Who for?"

"Lindsay, of course."

That seems funny, considering the unanimity with which they supported Smith in the southern part of the State."

Yes, it's a little funny that the niggers should have sense enough to vote the Democratic ticket. The Radical school teachers are leaving them something. The more the negroes are educated the more they will see that it is to their interest to vote with the people among whom they live, who like them, who care for them, who give them part of their cotton crops, instead of running after a set of dead-beats and carpet-baggers.

"And sealawgagets. I didn't want my friends from the North to bear the entire brunt of the Democratic wrath."

"Yes, and every other kind of wagget and wiggler. Why, in election day the negroes came up to the polls and said they wanted to vote, and to give them something. Some of the men said, 'Pox how do you want to vote?' And they answered that they wanted to vote like all the balance was voting. A Democratic ticket was ready to them, and they said that was the very think—just want they wanted, and so they voted it.

A Proclamation.
STATE OF ALABAMA,
EXECUTIVE DEPARTMENT,
Montgomery, Dec. 18, 1860.

Whereas, James E. Grant did, on the second day of December, 1860, file his official bond, duly approved by me, and did otherwise qualify as the Treasurer of the State of Alabama. The Tax Collectors of the several counties of the State, and all other officers and persons are hereby notified and required to pay over, next day, to the said James E. Grant all moneys belonging to the State of Alabama now in, or which may hereafter come into his hands,

Governor of Alabama.

land.

From the Eastern Shoreman.

As eleven United States soldiers were returning from Prince Anne, the ears stopped at Seaford, Delaware, and the United States Marshal, H. C. Moore, of that place entered the cars, and asked the Captain how the election passed.

"Oh, fine, very fine," said the Captain.

Marshal—"What's the capital electing?"

Captain—"Perfide, sir; no doubtance."

Marshal—"And the Radicals all vote?"

Captain—"I guess so."

Marshal—"Well, how is the election gone?"

Captain—"Every d—l Radical is cleaned up; never will be heard of any more down there, dear sir, dead as a horse gone up St. River in body politic."

Marshal—"I didn't go down to touch the Radical."

Captain—"Not a d—l bit, sir; I am a Democrat, and every man under me; a Democrat; and in two years we intend to clean up that d—l race, old Gringo Grant."

The Marshal fled in dismay.

A man stopped his paper, wrote to the editor, "I think folks ought to spend their money for paper, my daddy didn't, and every body said he was the most intelligent man in the country and had the smartest family of boys that ever duggit taters."

There is a waggish couple living in Marvinton, who have lately been blessed with an heir, and like every young couple, feel particularly proud over it. "What shall we name our boy?" said the young wife. "Call him Peter." "Oh, no! I never knew my one by that name that could earn his salt." "Well, then, call him salt peter."

Cov. Walker on the Administration.

Gov. Walker, of Virginia, in his annual message, shows the way in which Grant sent Federal troops over to South, and pays his respects to him as follows: "I feel bound to say that, in view of all the circumstances, the sudden withdrawal of these troops while in the midst of the performance of the delicate duty to which they had been assigned of sustaining the civil authorities in Norfolk county, in removing negro soldiers, in accordance with an order from the President himself, without any notification to or consultation with me, endangering, as it did, the lives of our officers and men, and the peace of the country, was, in my opinion, an act of official disloyalty and a manifest violation of the gravest character, without a parallel in the history of the country. If the original order for the assignment of Federal troops to this duty was right, then its revocation, and the circumstances, was an inexcusable

It is requested by the County Executive Committee, that the various Board Committees call Board meetings and elect delegates to attend a County nominating Convention called to meet in Jacksonville on the Third Saturday in January for the purpose of nominating a candidate for County Superintendent, to be elected in March next, in pursuance of a recent enactment of the Board of Education approved by the Governor.

It is now definitely ascertained, beyond a doubt, that old Shanghai, who pretends to represent Calhoun and Cherokee counties is the worst old Radical in the State. When the time comes for "showing hands" at Montgomery, both he and McAfee proved themselves far more hostile to the people of Alabama than Coon and other carpet baggers of his ilk. The people of Calhoun and Cherokee call upon old Shanghai to resign his place in the Senate, that they may elect some man of their choice in his place. This Mr. Sanford (Shanghai) will do, if he has any self-respect left. He knows well enough that he has been more representing the people of Calhoun and Cherokee. No public servant should be allowed to do. Will you resign Sanford? or, will you hold on in defiance of the will and wishes of your masters, the people, subject to the contempt of all honorable men? Will you resign Sanford?

It was hardly the rumor for a week (but hardly credit it), that ex-Governor Smith and ex-Governor Parsons, are in Washington working for another reconstruction of Alabama. What should be the fate of men who are always unceasingly and untiringly working against the most vital interests of Alabama?

On last Thursday night a party of madcap youngsters made their appearance in town, dressed as Ku Klux. After a few harmless pranks they suddenly disappeared, leaving the people something to talk over next day.

Although their visit was attended with no unpleasant results, we grately protest against a repetition of the exhibition for several reasons,—first, because, as the law now stands, it is an infraction of it to appear on the highways in disguise; and contempt of law even in the smallest matters, leads to bad results in the future of our country; and second, because that portion of the Yankee Congress, even in favor of further suppression of the South, have attached a political significance to the demonstrations of masked men, and eagerly seize upon such displays as the one in question, as pretexts for further legislation inimical to our interests, and hostile to the permanent success of the Democratic party. We know that such freaks of youngsters as the present one, have no political meaning; but the Northern people do not know it, and are prepared to count every such demonstration to the account of the Democratic party.

The concluding section extends the benefit of the Amnesty, to all acts and omissions made or done, or omitted to be done, by any officer or soldier or other agent of the United States in carrying out or putting in execution the laws of the United States known as the "Reconstruction Acts," and the other acts for the government of the rebellious States, however the same may be entitled.

Amendments will be offered in the House to strike out the excepting clauses, so as to make the Amnesty as full and complete as the title of the bill indicates. It is certain that the House will be as liberal as the committee in the matter.

A curious accident occurred at a church in Meriden, Ct. last Sunday. A gentleman was pronouncing an aisle with his eyes over his arm, when from the pocket of the coat, to the amazement of himself and others, slipped a pack of cards. Smiling a giddy smile, he scooped up as many as he could of the pasteboards, and passed along as quickly as possible.

In his speech on the Butler amnesty bill, Congressman Morgan makes the point that if the 180 United States officers including Lee, the Johnstons, Longstreet, and others, were patriots, for withdrawing from the United States to take part in the rebellion, Clinton, who was then Secretary of War, colluded in the treason by accepting their treasonable resignations. He aided them to leave the field.

Such fun, therefore, as riding about with a mask on, is costly to the country, and we are too poor yet, by half to pay a high price for our amusement.

AMNESTY.

Provisions of General Butler's Amnesty Bill.

PROPOSED AMENDMENTS.

The amnesty bill, proposed by General Butler, from the Reconstruction Committee, is identical with the bill reported in June last, and recommitted to the committee. It is entitled "A bill for full and general grace, amnesty and oblivion of all wrongful acts, doings, or omissions of all persons engaged in the war of the late Rebellion." We will only issue a half sheet next as customary every year, in order to the printers holiday.

The new Methodist minister preached the sermon on last Sabbath at 11 a.m. The people are pleased with

not the young ladies of Jacksonville get up some kind of entertainment during the holidays, to aid the Lee Mission Association?

Don't all come at once with your Christmas gifts. That is, we do not to be overwhelmed with a rush, no objection to the gifts, however, stand.

Carrier will be on hand New Year's eve, with an Address, which we have already seen of it, will take exceedingly well.

Many of our foreign advertisements of the early part of this month have been taken out, which gives us room for reading matter.

The hour of last week the proof was out. That will account for the errors which occurred on the front of the paper.

Cross Plains Democrat, is the title of the paper just started at the flour town of Cross Plains. We wish young men who have undertaken difficult task of establishing a newspaper, an abundant success.

call particular attention to the enforcement of E. L. Woodward's ladies did you know they were out so low? Fact. Theлагatian giving way will astenish the natives, fact becomes generally known.

Would gravely suggest to the that there is no fun in running gosses, bungling gates, and other destroying the property of people names eve night, as has been the from time immemorial. The too old to be laughable.

Montgomery Bros. has but 40 young men in the ages of 18 and 20 years, on board, that of this number, 12 use tobacco.

There has been furnished us by a reporter. Now, can he tell us many of the number are so fortunate free of the appetite for strong? Let us hope more of them.

"Violet" has this week, at Montgomery Bros., an unusually large assortment of cakes. Those who are not successful in baking all kinds at Montgomery Bros., not exceeding the material and of baking. Violet is one of the cleanest cooks in the State, housekeeper in town will hasten her.

For the 1st day of January 1871, we positively enter no more names on description list, unless the cash is advanced. Friends will please note the favor. Between now and that we expect all who are in arrears to clean up. Those who do may expect to have their papers paid at the end of the year, and their sent out for collection.

Town Council speak of giving a entertainment during the Christ- holidays.

programme is to secure three of tight-rope performers in the United States, and set them to the difficult walking the bridge over the dry bed of the river. The dry beds are of the dand difficulty of the undertaking, have offered a purse of One Thousand dollars to the successful man of the This, however, will cost the tax nothing, as the tight-rope men certainly fail.

Our streets are sadly in need of repair.

ARTIFICIAL GUANO.—Take 60 lbs. Sulphate of Ammonia, 50 lbs. Nitrate of Soda, 20 lbs. Rock Potash, 1 bushel common salt; add sufficient water to dissolve well, then pour the preparation over 20 bushels of rich earth, or stable manure. Add and mix with this barrel of sand plaster, one barrel of bone dust, and one barrel of lime or sand amount of good ashes.

The above are the proportions for one ton. Use as other guano—from one to four hundred pounds per acre. Three hands can make from three to four tons a day at a cost of from \$26 to \$28 per ton. This preparation is superior to Patapsco Guano. It should be made under a shelter and kept dry if possible.

Messrs. Ed. Turner and J. L. Elston have tried this fertilizer, and find it al that is claimed for it.

NORTH CAROLINA.

Raleigh, Dec. 20.—To-day, at eleven o'clock, the Board of Managers, appointed by the House to conduct the impeachment of Governor Holden, attended by Speaker and House of Representatives, proceeded to the bar of the Senate and formally submitted the articles of impeachment. After the conclusion of the ceremonies, the Lieutenant Governor vacated his seat in the President of the Senate and shortly afterwards took charge of the executive office. Gov. Holden made no objection to surrendering the office.—The Court of Impeachment will convene as soon as Chief Justice Pearson can arrive in the city.

By the confession of a dying negro, it has been ascertained that all the burnings and depredations committed in this and adjoining counties for the past year, was the result of a planned conspiracy on the part of negroes of the Union League. Forty names are in the possession of the authorities. Some arrests have been made; and officers are in hot pursuit of others.

K. K. K.'s. The "veritables," paid us a flying visit on Tuesday night last.

On Friday three youngsters ranging from 10 to 13 years, were seen on the public square drinking from a bottle, which they passed around with great gusto. One of them "wouldn't take a cow and calf" for an old hound he had along, and another frequently remarked that he "spent his money free," all of which, would have been very amusing if it had not been painful. The lad belonged to a family moving to Mississippi.

Santa Claus has his headquarters at Montgomery Bros.

J. M. Andrews, living on Nancy's Creek, has raised this year, 1675 pounds of cotton to one acre of land. When we consider that he only put in five dollars of fertilizer, and that the cotton was raised in an apple and peach orchard, which necessarily shaded it, the above result speaks well for the land. Hurrah for Nancy's Creek!

Montgomery Bros. have all sorts of toys, candies, &c., for christmas.

We learn through rumors that two negroes were hung in Cherokee county by a mob, some days ago. It seems that four negroes conspired to take the life of a gentleman living in that county. They waylaid the road and killed a man supposed by them to be the man they were after. It turned out, though, that they had killed his brother by mistake.

Two of them were captured and hung. On confession they revealed the above facts.

A member of the Garrison at Patona, was severely cut by a man some days ago, whom it is said, the soldiers attacked. We have learned no definite particulars.

Atlanta Constitution.

Rome, Dec. 21.—Democrats three to one ahead. Many negroes are voting Democratic.

Atlanta, Dec. 21.—Election progressing quietly. Several white men arrested for inciting negroes to vote illegally. Tea colored men arrested for illegal voting. One hundred and fifty colored illiterate voters escaped to fight on State side. Deputy Marshal States Marshal refused to accommodate them.

White leaders arrested. Returns come in slowly, and nothing definite can be ascertained until voting closes.

The impression gains ground that the Democrats will certainly elect four, if not five members to Congress and a large majority of the members to the Legislature.

Rome, Dec. 21. The election returns from the State come in meager and unreliable. All was quiet, except a difficulty at Mason, which was instigated by the Radicals slaying a negro for voting the Democratic ticket. The difficulty was settled, and the troops were present and interested.

LATER.—Dec. 22.—The vote to-day passed at 1251, while of two thirds were Democratic.

Some idea of Radical property may be formed, when it is known that Mr. Zach. Harzrove, is a candidate for the Legislature in Floyd county, and is acting as one of the election managers appointed by Gov. Bullock.

Atlanta Constitution.

Three hundred and five votes were polled yesterday at Deacon, one hundred and ninety-six at Stone Mountain, and one hundred and twelve at Lithonia, making a total of six hundred and thirteen in DeKalb county. The election is proceeding quietly. It was thought yesterday that Bennett would bring important voters to Stone Mountain, and the military would have to be invoked to check it. But so far there have not appeared there.

Atlanta Constitution.

Mrs. A. Woods has sent us some large fine strawberries of the Agricultural variety, grown this winter in the open air. By watching them closely and covering them at night, and during very cold weather, she has succeeded in blooming and ripening a bed of them. Who can beat this?

ALEXANDER FRANKENKORN, December 20, 1870.

Editor Constitution.—We met the enemy this morning at early dawn, and have completely routed him with our skirmishers. None of our main lines were in the fight, and yet their forces are scattered and dismayed. We have voted over one-half of the colored vote, and more than half of the white Radicals. Out of 562 votes polled here to-day, at least 400 are for the regular Democratic ticket. Poor Nat, don't you pity him? Whitfield will nominate our former master, and add to it year-fld.

We hear the same result from Murray. Tell our friends to be good cheer.

SNOKES.

We are again laid under obligation for an elegant assortment of confectioneries, by Montgomery Bros., the kindest and most thoughtful of men. They knew we wanted such things for the children's stockings, and at the same time were equally aware of our inability financially, owing to the fact that many of our subscribers will not pay up, to gratify the wish. May their receipts be as large as their hearts, and their success as abundant as their great liberality. Montgomery Bros. are no half way men. Their stock of fine candies is the best we have seen in Jacksonville since the war.

A new lot of lamps and lanterns for sale cheap at Montgomery Bros.

MONEY.

We respectfully request all those who are indebted to us, to come and settle up as we are compelled to collect, in order to meet our liabilities.

We hope none will fail to heed and read this call; for we are compelled and must have money! Prompt payments make good credit.

Good for his Debts.

"Devil take the man who is good for his debts." He is the worst dead beat in the business, and a complete nuisance. He is a burden and a tax upon the community in which he lives, a set back, bankruptcy, protest, repudiation and rumination to all his friends and to all whom he curses with his disastrous patronage. He is a melancholy misfortune, and a nauseating failure in any light that you pass upon him. He is a humbug and an eye-sore to the business community simply because he is "good for his debts." Being "good for his debts" he don't attempt to pay them, and his friends have to wait until they are weary of waiting, and then commence anew. Simply because he is notoriously "good for his debts."

Mr. Summer intimates that Mr. Grant is a fool without knowing it. It is scarcely necessary for Mr. Grant to know it. We can give Mr. Summer an order on several men that do know it.

Two boys at Paducah, Kentucky, cut down a tree to capture an opossum, but neglected to get out from under the tree when it fell, causing a double-barreled funeral.—The opossum is on another tree waiting for some more boys.

First Recruit, Wm. W. Armstrong, 16th United States infantry, was recently tried by court-martial at Nashville, Tenn., on various charges, the substance of which was conduct prejudicial to good order and military discipline, and having been found guilty, was sentenced to dismissed the service, which, having been duly considered by the Secretary of War, has been ordered to be carried into effect.

The withdrawal of Gen. Garibaldi speaks ill for the French peasantry. The veteran hero of liberty would certainly not have given up the fight if the benighted French peasants were not a worse enemy to overcome than the German invader. The mental and moral vegetation of the French rustics seems to have extinguished all vestiges of patriotism, and the Voltaican Parisian dandy turns out after all to be a nobler man than the unsober-peasant viler. If VERCHEZ-NAROTZ had done anything to encourage popular education, the masses of the French peasantry might have had ere this a chance of improving their minds and becoming better citizens. But as it is, they are shrouded in ignorance and darkness.

Manhood: How Lost, How Restored. SAN FRANCISCO, Dec. 15.—Mr. Charles Fisher, the business manager of the Sacramento *Daily Reporter*, and State Printer Expert, was shot dead in his own house last night by Charles Dell, a young man who was paying his attentions to his daughter, and who had just been ordered by her to leave the house. Mr. Fisher had struck Dell several blows on the head with a cane before the third and fatal shot was fired.

The Toledo Blade says a Bureau of Immigration is much more important than an Indian Bureau. Which is true. We can't suppose the Indian with power and wealth and small pox and Streptococcus and Cincinnati whisky, but the immigration business has to be managed in a different sort of way.

The Springfield *Republican* is of the opinion that in New England the hypocrites has had its day, and that people are beginning to conclude that they have been lectured enough. In Springfield the Library Association, which used to claim from \$1,000 a year from its winter's course of lectures, this year makes nothing, the receipts barely covering expenses. In almost every New England town small and large, the losses from decreasing lectures' charges are increasing with the addition of a "lecture" fee—an extra. If this state of affairs continues the lecturer's occupation in the Eastern States will soon be gone.

LUCY PATRICK.—In one of the Senatorial Districts of Illinois—the Bloomington District—the radicals nominated a Michael Donahue for the State Senate. The action of Senator Drake in resigning his seat in the Senate for the position of Chief Justice of the Court of Claims will result in the election of a Democrat by the Legislature of Missouri to succeed him in the Senate. It is thought Frank Blair will be the coming man. Many Senators are of the opinion that, under the circumstances, the President should not have nominated Dake, and should the latter have sought the nomination. When his name was put in, however, the people had nothing against Drake personally, and would not interfere with his appointment if he was nominated. As usual, when a Senator is nominated for office while he is a member of that body, Drake was confirmed without being referred to a committee.

"Leave your friend," said a fiery-looking young man, post on a dark night: "leave you in a condition not to take care of yourself? He—never!"

The action of Senator Drake in resigning his seat in the Senate for the position of Chief Justice of the Court of Claims will result in the election of a Democrat by the Legislature of Missouri to succeed him in the Senate. It is thought Frank Blair will be the coming man. Many Senators are of the opinion that, under the circumstances, the President should not have nominated Dake, and should the latter have sought the nomination. When his name was put in, however, the people had nothing against Drake personally, and would not interfere with his appointment if he was nominated. As usual, when a Senator is nominated for office while he is a member of that body, Drake was confirmed without being referred to a committee.

REPUBLICAN PAPER THINKS GIN GRANT A FOOL.—Why should not Grant forgive Porter? The latter's sin is not a rite of Butler's, who sneers at the President all the time, yet dictates his appointment and policy more than any other man in the nation. The attention of Merchants is called to the Magnificent Stock of

SHARPE'S WYOMING IRON.

DR. SCHENCK's Service Consumptives to go to Florida in Winter.

Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fully the course that ought to be pursued to restore a tolerable, but not diseased lung, to health soundness. The first and most important step is for the patient to get away from all places where there is a cold climate, and especially from all places on this continent for this purpose in winter, is Florida, well down in the State where the temperature is regular, and not subject to such variations as in more Northern latitudes. Palatka is a point I can recommend. A good hotel is kept by Peterman, and where I have several patients, among others whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicines, were getting well.

One hundred miles further down the river is a point which I would prefer, Palatka, as the water is deeper, and the air drier and clearer. Melville and Enterprise are located there. I should give a decided preference to Melville. It is two miles from river or lake, and it seems almost impossible to take cold there. The tables in Florida might be better, and patients complain at times of the heat and bad sign, as it indicates a return of appetite. But this is the case they generally increase in flesh, and then the lungs must heal.

Jacksonville, Ilionia, Green Cove, and many other places in various parts of Florida can be safely recommended to consumptives in winter. My reason for doing so are the patients are enabled to take cold there than where there is a less even temperature, and it is not necessary to say that where a consumptive person exposes himself to frequent cold, he is certain to die shortly. Therefore my advice is, go well down into the State out of the reach of prevailing winds and fog, and where the air is dry and clear, and the facilities I have mentioned, will benefit those who are troubled with a torpid liver, a disordered stomach, deranged bowels, sore throat or cough, but for those whose lungs are diseased a more southern point is earnestly recommended.

For several years past, I was professionally in New York, Boston, Baltimore, and Philadelphia every week, where I was and examined, on an average five hundred patients a week. A practice so extensive, embracing every possible phase of lung disease, has enabled me to understand the disease fully, and hence my great regard to the value of a medicine may take, and quantities of "Schenck's Pulmonic Syrup," "Seaweed Tonic and Mandrake Pills," and "Pectoral," etc., etc., etc.,

In Florida, nearly everybody is using Schenck's Medicines, especially Schenck's Mandrake Pills, for the cure of consumption, and the results are far more satisfactory than others. It is a well established fact that natives of Florida rarely die of consumption, especially those of the southern part. On the other hand, in New England, one third, least, of the population die of this terrible disease. In the Middle States it comes next, and, therefore, still more than half of all the people die of consumption, many thousands of men, women, and children.

What a sad percentage of life would be saved if consumptives were as easily alarmed in regard to taking fresh cold as they are about scarlet fever, small pox, &c. But they are not. They take what they term a little cold, which they consider enough to make them ill, and will lie in bed. They pay no attention to it, and hence it is the foundation for another and another still, until the lungs are diseased beyond all hope for cure.

My advice to persons whose lungs are affected even slightly is, to lay in a stock of Schenck's Pulmonic Syrup, Schenck's Seaweed Tonic and Schenck's Mandrake Pills, and go to Florida. I recommend these particular medicines because I am thoroughly acquainted with their action. I know that where they are used in strict accordance with my directions they will do the work that is required. This accomplished, nothing is left for the physician, who, especially for cold, cough or rheumatism, then advises the patient to walk or ride out every day, will be sure to have a corpse on his hands before long.

My plan is to give my three medicines in accordance with the printed directions, excepting that when the patient is not able to take the Mandrake Pills, it is necessary. My object is to give tone to the stomach—to put up a good appetite. It is always a good sign when a patient begins to grow hungry. I have hopes of such. With a relish for food and the gratification of that relish comes good blood, and with more flesh, which is necessary for the growth of the system. Then the cough, hoarseness and asthenes, the crepitus, chills and clammy night-sweats no longer prostate and annoy, and the patient generally, will provide to avoid taking cold.

Now there are many consumptives who have no desire to go to Florida, and the question may be asked, is there any hope for such? Certainly there is. My advice to such is, and ever has been, to stay in a warm room during the winter, with a temperature of about seventy degrees, which should be kept regularly at that point, by means of a thermometer. Let him who has his nerves within the limits of the system, walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease if it is taken in time, and the proper treatment is pursued. I feel quite satisfied in regard to that Schenck's Pulmonic Syrup, Mandrake Pills, and Seaweed Tonic have cured very many of what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive having recovered from the very jaws of death by these drugs.

So far as the Mandrake Pills are concerned, everybody should keep a supply of them on hand. They act on the liver better than calomel, and leave none of its hurtful effects behind. In fact they are excellent in all cases where a purgative is required. If the patient has too freely of flatus, and diarrhoea, a dose of the Mandrake will cure you. If you are subject to sick headache take a dose of the Mandrake and they will relieve you in two hours. If you would obviate the effect of a change of water, or the too frequent change in fruit, take one of the two first dredges in fruit, or a few at a time, and eat them when drink water and eat watermelons, pears, apples, peaches, etc. without the risk of being sickened by them. They will protect those who live in damp situations against chills and fevers. Try them. They are perfectly harmless. They do no good to the perfectly healthy.

I have also had many professional visits to Boston and New York, but continue to see patients at my office, No. 15 N. SIXTH Street, Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Physician will be charged five dollars. The Physician determines the condition of the lungs, and patients can readily learn whether they are curable or not.

But I desire distinctly understood that the value of my medicines depends entirely upon their being taken strictly according to directions.

In conclusion, I will say that when persons fall into a bad condition, they should not be so liable to take cold, put no one with diseased lungs can bear a sudden change of atmosphere without the liability of greater or less irritation of the bronchial tubes.

Full directions in all languages accompany my medicines, so explicit and clear that any one can use them without confusion, and can be brought from any druggist.
